

GSA Visual Arts Auditions 2017

Mandatory Drawing Assignment

Drawing from observation is an important skill that will help your artistic growth, no matter what form of art you enjoy creating. It is similar to an athlete's training. A professional basketball player may have to lift weights to build strength, even though that is not part of the actual game. Please choose 10 objects from the list below. Draw them as you see them. These sketches don't have to be perfect, finished drawings. Sketchbook studies are fine. **Please bring these drawings to your audition with your portfolio.**

1. a plant
2. a chair
3. your unmade bed
4. a coffee cup
5. a stuffed toy
